## Wind A 'No-Show' In Pageant Regatta

By MIKE GILL  
News-Press Boating Writer

A mid-morning calm pounced on 60 one-design sailors competing in the 10th annual Edison Pageant of Light Regatta Sunday as the event coasted to a close after four or five scheduled races.

For the skippers of the Snipes, Lasers, MC Scows, Hobie Cats, Fireballs, Contenders and a variety of one-design windboats, it is the second straight day of near-windless frustration on the Caloosahatchee River. Skippering a sailboat without wind is almost as exciting as smooching with your grandmother.

The Regatta opened Saturday with near becalmed conditions that carried over into Sunday's fourth and final event of the five-race series.

Skippers with a knack of making their boats go in light to next-to-nothing air reigned supreme throughout the regatta.

MC Scow sailors had a good chance to look over their competition for Friday's opening of the National MC Mid-Winter Championships to be sailed out of the Royal Palm Yacht Club in the Caloosahatchee. Some 25 or so MC Scows are expected to participate, representing various parts of the nation.
